Ramakrishnan Balakrishnan (Harish-Chandra Research Institute, Allahabad, Indien): *On a correspondence between Jacobi forms and modular forms*

In this talk, we present our work on a generalization of a correspondence between holomorphic Jacobi cusp forms of higher degree (matrix index) and elliptic cusp forms obtained by K. Bringmann for forms of higher levels (for congruence subgroups). This is a joint work with Karam Deo Shankhadhar.

Wir laden alle Interessierten herzlich ein.

Ab 13:15 Uhr gibt es Kaffee und Tee in der Bibliothek des Lehrstuhl D für Mathematik.
