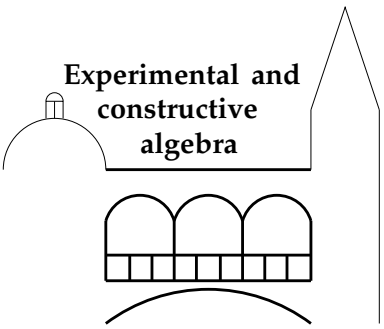
Experimentelle und konstruktive Algebra



Kolloquiumsvortrag

Dienstag, 19. Juni 2018, 14:00 Uhr, Hörsaal V

Ansgar Strzelczyk (Lehrstuhl B für Mathematik):
Simplicial surfaces with congruent faces

The combinatorial, group-theoretical concepts for closed simplicial surfaces with congruent faces are discussed. The algebraic methods for the computation of embeddings in Euclidean 3-space are explained along with examples of surfaces with less than 20 faces.

Wir laden alle Interessierten herzlich ein.
