Summer School in Mathematics

19.09. – 24.09.2004

in Pappenheim , Altmühltal (Mittelfranken, Germany)

Topic: Conley–Index and Computational Homology: Applications of Algebraic–Topological Methods to Stochastic, Numeric und Analytic Problems.

With series of talks by the following **experts**:

- **Prof. Dr. Konstantin Mischaikow**
  (Center for Dynamical Systems and Nonlinear Studies, Georgia Tech, USA)
- **Prof. Dr. Thomas Wanner** (George Mason Univ., USA)
- **Dr. Oliver Junge** (Univ. Paderborn, Germany)

Sponsor: Deutsche Forschungsgemeinschaft (DFG)

Organisation: Prof. Dr. Stanislaus Maier–Paape and Dr. Dirk Blömker

In case of interest, please contact

Dr. Dirk Blömker
Institut für Mathematik
RWTH–Aachen
Templergraben 55
D–52062 Aachen
bloemker@instmath.rwth-aachen.de

no later than **16.07.2004**. The number of participants is limited.

On application limited financial support, in particular for local expenses, may be granted even to external participants.
